

## Allstate BENEFITS

Protection when faced with  
a critical illness diagnosis  
and you need treatment

## Critical Illness Insurance

No one is ever really prepared for a life-altering critical illness diagnosis. The whirlwind of appointments, tests, treatments and medications can add to your stress levels.

The treatment to recovery is vital, but it can also be expensive. Your medical coverage may only cover some of the costs associated with treatment. You're still responsible for deductibles and coinsurance. If treatment keeps you out of work, the financial worries can grow quickly and stress levels may rise.

Critical Illness coverage helps provide financial support if you are diagnosed with a covered critical illness. With the expense of treatment often high, seeking the treatment you need could seem like a financial burden. When a diagnosis occurs, you need to be focused on getting better and taking control of your health, not stressing over financial worries.

### Here's How It Works

You choose benefits to protect yourself and any family members if diagnosed with a critical illness. Then, if diagnosed with a covered critical illness, you will receive a cash benefit based on the percentage payable for the condition.

### Meeting Your Needs

- Guaranteed Issue coverage, subject to exclusions and limitations\*
- Coverage available for individual and child(ren) or family
- Covered dependents receive 50% of your Basic-Benefit Amount
- Benefits paid regardless of any other medical or disability plan coverage
- Premiums are affordable and conveniently payroll deducted
- Coverage may be continued; refer to your certificate for details
